SUMMARY

Creative and detail-oriented Frontend Developer with strong expertise in **HTML**, **CSS**, **JavaScript**, and **React**. Experienced in building responsive and user-friendly web applications, ensuring optimal performance and accessibility. Proficient in using tools like **Bootstrap** and **Redux Toolkit** to enhance user experience. Passionate about staying updated with the latest web technologies and best practices to deliver high-quality solutions.

EXPERIENCE

AJP

Anudip Foundation

August 2024 - Present, Bhopal

- I am currently undergoing training at Anudip Foundation, where I am advancing my skills in Java technologies, focusing on Core Java, MySQL, JDBC, and Hibernate (JPA).
- This program is enhancing my understanding of object-oriented programming principles, database management, and efficient data handling through Java.
- I am also gaining experience in integrating Java applications with relational databases and using Hibernate for ORM (Object-Relational Mapping).
- This training is helping me further strengthen my backend development skills and expand my knowledge in enterprise-level application development.

Web Developer

Ducat India

January 2024 - July 2024, Gurugram

- Web development training at Ducat.
- During this six-month training, I focused on enhancing my web development skills, specifically in frontend technologies.
- I gained hands-on experience with the(HTML, CSS, React.js, and JAVASCRIPT), which allowed me to develop a deeper understanding of how to build frontend web applications.
- Through practical projects and real-world tasks, I improved my proficiency in designing dynamic and responsive user interfaces.
- This training also strengthened my problem-solving abilities and my ability to efficiently in frontend.

PROJECTS

Code Book

Self · code-book-theta.vercel.app/

- Web application that allows users to efficiently manage notes or snippets of code.
- This project, built using **HTML**, **CSS**, **Bootstrap**, **JavaScript**, and **React.js** with **Redux Toolkit**, offers features such as adding, saving, deleting, updating, and viewing notes or code entries.
- The application is designed with a user-friendly interface, ensuring seamless interactions for users managing their notes or code snippet.

Dice Game

Self · dice-game-nine-jade.vercel.app/

- Dice game website is built using React, where users select a number before rolling a dice. Once the user clicks the dice, a random number is generated.
- If the generated number matches the user's selected number, the score increases.
- If the number is incorrect, 1 point is deducted from the total score. This interactive feature helps engage users and provides a simple, dynamic gameplay experience.

Hotel Management System

Self · github.com/SuryaYadav731/Java25/tree/main/HotelReservation

- Developed a Hotel Management System using Java, JDBC, and MySQL with the following features: **Reserve a Room**, **View Reservations**, **Room Number**, **Update Reservations**, **Delete Reservations**.
- This project demonstrates database management and CRUD operations integration using Java and MySQL.
- Facilitates reservation cancellations by removing entries from the database using SQL **DELETE** queries.

EDUCATION

B.Tech (Computer Engineering)

IKGPTU Main Campus · Kapurthala, Punjab 144603 · 2024 · 7.69

12th

Minor in PCM · Amar Memoria St Georges Prep School · Sarnath, Varanasi · 2020 · 74.6

10th

Seth M.R Jaipuria School Banaras · Babatpur, Varanasi · 2018 · 77.8

CERTIFICATIONS

Web Developer Training

Ducat India · 2024

Advanced Java Programing

Anudip Foundation · 2024

SKILLS

HTML, CSS, JAVASCRIPT, REACT.JS, REDUX-TOOLKIT, BOOTSTRAP, CORE JAVA, MY SQL, JDBC, HIBERNATE (JPA), GIT, GITHUB
