EXPERIENCE

Graduate Engineer Trainee

Ducat

📅 01/2024 - 07/2024   📍 Gurugram

Software training institute in Gurugram, Haryana

- I have expanded my expertise by learning full stack development through the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- I am eager to apply this knowledge in a professional setting and contribute to projects that require both frontend and backend development skills.
- This experience allowed you to deepen your understanding of full stack development while working on a practical and impactful project

Trainee

Techgyan

📅 2023   📍 Location

Training Provide

- In 2023, I took a one-month training program at TechGyan, where you focused on enhancing your frontend development skills.
- During this training, you worked extensively with HTML, CSS, and Bootstrap to build responsive and visually appealing web pages.
- You also integrated JavaScript to add interactivity and dynamic features to your projects, significantly improving your abilities in frontend development

Java Engineer

Anudip Foundation

📅 08/2024 - Present   📍 Location

Anudip Foundation is one of the top NGO in India. We provide skill development training for the underprivileged people.

- I am currently pursuing the **AJP certification** at Anudip Foundation, focusing on improving my skills in **Java**, **OOPs**, **SQL**, and other relevant technologies.

PROJECTS

Blood Bank

📅 01/2024 - 04/2024   📍 Gurugram

https://github.com/SuryaYadav731/blood_bank

- In my 8th semester, I developed a blood bank system using the MERN full stack.
- The project aims to ensure the availability of all blood groups, addressing the critical need for blood during emergencies.
- The website includes four categories: Donor, Admin, Organization, and Hospital, each with registration and login functionalities to manage and access blood resources efficiently

Job Search

📅 2024   📍 Gurugram

https://github.com/SuryaYadav731/Job_search

- I developed a major project using the MERN stack (MongoDB, React.js, Node.js) and Postman.
- The project is a job portal that allows job seekers to register, log in, and apply for jobs. On the other hand, employers can also register, log in, and create job postings.
- The website includes essential features such as authentication to ensure secure access and operations

CERTIFICATION

DUCAT Full Stack Development Trainee (2024)

TechGyan Trainee one month (FRONTEND DEVELOPER)

EDUCATION

Class 12th

Amar Memo St Georges Prep School Sarnath
